

Archer Daniels Midland

Decatur, Illinois

Archer Daniels Midland is one of the world's largest agricultural processors and food ingredient providers with more than 32,300 employees serving customers in more than 160 countries. When the military nominator was recently on extended annual training, his unit craved sports drinks to quench their thirst in the desert environment. ADM sent several cases of Gatorade for the troops and has provided meals for Soldiers at the range during training sessions. The company often sends large care packages, not only to their own employees, but to other Soldiers in units who may not have received similar support. ADM's support extends to the community, where it has provided over \$70,000 in financial support for military charities as well as volunteer support. In addition, ADM hired a Wounded Warrior who is dedicated recruiter for both veterans and individuals with disabilities. www.adm.com/careers
